Amendments to the Claims:

Please cancel claims 29-34.

Listing of Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

- 1. (Withdrawn) An isolated nucleic acid encoding a C. pneumoniae protein as set forth in Table 3.
- 2. Withdrawn) The isolated nucleic acid of Claim 1, wherein said nucleic acid has a nucleotide sequence of an open reading frame in SEQ ID NO:1.
- 3. (Withdrawn) A probe comprising a hybridizing fragment of an isolated nucleic acid according to Claim 2.
- 5. (Withdrawn) An isolated nucleic acid that hybridizes under stringent conditions to the nucleic acid sequence of Claim 2.
- 6. (Withdrawn) An expression cassette comprising a transcriptional initiation region functional in an expression host, a nucleic acid having a sequence of the isolated nucleic acid according to Claim 1 under the transcriptional regulation of said transcriptional initiation region, and a transcriptional termination region functional in said expression host.
- 7. (Withdrawn) A cell comprising an expression cassette according to Claim 6 as part of an extrachromosomal element or integrated into the genome of a host cell as a result of introduction of said expression cassette into said host cell, and the cellular progeny of said host cell.
- 8. (Withdrawn) A method for producing a C. pneumoniae protein, said method comprising:

growing a cell according to Claim 7, whereby said C. pneumoniae protein is expressed; and

isolating said C. pneumoniae protein free of other proteins.

9.(Cancelled)

10. (Withdrawn)

A monoclonal antibody binding specifically to the polypeptide of Claim 9.

11.-22. (Cancelled)

23.(Previously Presented) An isolated *Chlamydia pneumoniae* protein comprising the amino acid sequence set forth in SEQ ID NO: 1047.

24.(Previously Presented) A composition comprising the isolated protein of claim 23, and a carrier.

25. (Previously Presented)

The composition of claim 24, wherein the carrier is an aqueous

carrier.

(9

26. (Previously Presented)

The composition of claim 24, further comprising an adjuvant.

27. (Previously Presented)

The isolated Chlamydia pneumoniae protein of claim 23, which is

bound to a solid surface.

28. (Previously Presented)

The isolated Chlamydia pneumonixe protein of claim 27, wherein

the solid surface is nitrocellulose.

29.-34. (Canceled)
